SEAN TEODOSIO | FRONT END WEB DEVELOPER

SUMMARY

Currently working as a freelance web developer creating and deploying static web pages for friends and paying clients. Progress driven and loves contributing to online coding/programming communities. Looking embark on my next journey as a developer and bring value while working on building bigger ideas. Eager to learn more on backend technologies.

SKILLS

- HTML5
- CSS3/Grid/Flexbox/SASS
- JavaScript/React
- Bootstrap/Materialize
- Node.js/Express.js
- MongoDB/NoSQL

FREELANCE/ PERSONAL PROJECTS

Belle Maison – HTML/SASS/WordPress

October 2018 - current

Designing landing page for Belle Maison boutique shop in Boca Raton FL. Setting up their WordPress Ecommerce site to enable orders and purchases with WooCommerce.

Marino App – React/SASS

Completed September 2018

Created a demo real estate app that utilizes a local database. App uses filters through results using object information. Replicated front end design comes from PSD.

Vallier – HTML/CSS/Bootstrap/JavaScript

Completed August 2018

Created a website clone from scratch based on the actual Vallier restaurant website. Utilized CSS grid to imitate layout and some JavaScript to navigate between menu categories

X. **Productions – HTML/CSS3/Parallax.js**

Completed August 2018

Designed and deployed a visual landing page for client. Uses imagery and parallex effect to provide a professional feel and impression.

EDUCATION   **COMPUTER INFORMATION TECH|VALENCIA COLLEGE**

Graduated Associates Degree with 3.47GPA

For the final course, worked on the hardware requirements to set up a new clothing shop and helped set up their ecommerce website using WordPress.
